Gardenia

- ✂ Direct morning sun till 11:30 or 12:00.
- ✂ Soil should be kept evenly moist (do not let plant sit in water).
- ✂ A humidity tray is a must. A plastic saucer that is 2-3" larger on all sides bigger than the pot. Fill the saucer with pebbles and fill water halfway up the stones.
(Extra humidity is the #1 key to growing Gardenias.)
- ✂ Fertilizer with a liquid mir-acid very 2 weeks.
- ✂ Use insecticidal soap and/or systemic insecticide granules for insect problems.
- ✂ Avoid locations near heating outlets or drafts.
